

PROTECPROP

Long-life translucent grease

USES

PROTECPROP provides long-term protection for equipment subjected to downtime over a long period or variable weather conditions.

This product is especially recommended where “lean and clean” grease is needed.

Numerous fields of use: cars, light commercial vehicles, agriculture, gardening, winemaking, marine equipment, etc.

MAIN PHYSICAL DATA

	Values
Appearance	Translucent grease
Colour	Colourless
Dropping point	250°C
Application temperature	From -10°C to +150°C

The data given in this table represents typical production values and should not be taken as specifications.

PROPERTIES & ADVANTAGES

- ▶ Outstanding protection against corrosion.
- ▶ Good stability with water.
- ▶ High thermal and mechanical stability.
- ▶ Good adhesion, meaning it does not have to be reapplied often and reducing the amount of grease used.

INSTRUCTIONS FOR USE

Shake the aerosol until the ball inside makes no noise. Spray the parts to be covered from a distance of 20cm.

Double-position spray with flip-up straw:

- **up for stream**
- **down for spray**

PRECAUTIONS FOR USE

Before use, carefully read the safety information on the label of the product, and check the instructions given on the Health and Safety Data Sheet available at yacco.com.

Do not spray close to live electrical appliances. Use only when the device is unplugged.

Wait 5 minutes before plugging back in.
