

DEBLOCKINJECT

Deblock oil for seized injectors

USES

DEBLOCKINJECT dissolves rust, dirt and limescale build-ups on injectors, jets and spark plugs.

Allows for easy removal of injectors and other parts, and prevents damage.

Suitable for a wide range of uses: cars, light commercial vehicles, heavy-duty equipment (transportation, construction, agriculture), marine equipment, etc.

PROPERTIES & ADVANTAGES

- ▶ Heavy-duty foam sticks to and penetrates deeply into clogged parts.
- ▶ Allows for easy disassembly of parts, thus saving time.
- ▶ Cleans the surface by removing rust, carbon residue, soot deposits and seal materials.

INSTRUCTIONS FOR USE

Shake the aerosol until the ball inside makes no noise.

Spray parts to be treated from a distance of 20cm.

Let the product act for a few minutes. Clean using compressed air or a cloth.

Loosen the parts. Repeat if necessary.

PRECAUTIONS FOR USE

Before use, carefully read the safety information on the label of the product and check the instructions given on the Health and Safety Data Sheet available at yacco.com.

Work in a well ventilated area. Use protective eyewear and rubber gloves.

Drain the aerosol head down after use.

Do not spray close to live electrical equipment. Only use on equipment which is unplugged.

Wait 5 minutes before plugging it back in.
