The data given in this table represents typical production values and should not be taken as specifications.

PROPERTIES & ADVANTAGES

- ▶ Cleans, degreases and leaves surfaces looking like new.
- ▶ Designed to cut through any grease, dirt, soil, and grime, including mud, brake pad dust, greasy parts, etc.
- ▶ Made using biodegradable surfactants, in accordance with applicable regulations.

INSTRUCTIONS FOR USE

- ▶ Spray in an up-down motion on the surface (which should preferably be dry).
- ▶ Let the product act without letting it dry.
- ▶ Rub with a sponge or rag.
- ▶ Thoroughly rinse with water.
- ▶ Dry with a rag for a perfect finish.

PRECAUTIONS FOR USE

- ▶ On fragile surfaces: for non-varnished or painted aluminium, quad bodies and garden power tools, test the product first and then quickly and thoroughly rinse. Do not use on trims if they are not protected.
- ▶ Aqueous solution, do not store at temperatures below 0°C.
- ▶ Read all the instructions on the label before use (MSDS at www.yacco.com).
- ▶ Alkaline product: avoid contact with eyes and skin, and wear glasses and rubber gloves.
- ▶ In case of contact with eyes or skin, rinse thoroughly with water.
