|------------------|------------|--------------------|--------------|
| Density 20°C | ASTM D4052 | kg/m ³ | 1005 |
| Appearance | Visual | | Clear liquid |
| Colour | Visual | mm ² /s | Light yellow |
| pH | | | 8.5 |
| Biodegradability | | % | > 95 |

The data given in this table represents typical production values and should not be taken as specifications.

PROPERTIES & ADVANTAGES

- ▶ Dissolves all dirt (mud, brake pad dust, grease, etc.).
- ▶ MOTOWASH is acid, soda and potash free, meaning it is non-aggressive on materials.
- ▶ Leaves a perfect finish when dry.
- ▶ 2-position spray gun ("STREAM" for precise spray and "SPRAY" for wide spray) for optimal effectiveness.

INSTRUCTIONS FOR USE

- ▶ Put in the "SPRAY" position and spray the surface from 20cm.
- ▶ Allow to work for a few minutes. Rinse thoroughly with water, jet, or steam pressure before the product dries.
- ▶ Dry with a rag for a perfect finish.

PRECAUTIONS FOR USE

- ▶ On fragile surfaces: non varnished or painted aluminium, quad bodies and garden power tools, test the product first and quickly and thoroughly rinse.
- ▶ Do not use on trims if they are not protected.
- ▶ Aqueous solution, do not store at temperatures below 0°C.
- ▶ Read all the instructions on the label before use (MSDS at www.yacco.com). Alkaline product: avoid contact with eyes and skin, wear glasses and rubber gloves.
