

# GRAISSE MOYEUX

Multi-purpose extreme-pressure grease

## USES

Particularly suitable for wheel hubs on heavy-duty vehicles.

Can be used where a NLGI 3 grease is required.

### Specifications:

**NLGI grade 3**

**ISO 6743-9 ISO-L-XBCHB 3**

**DIN 51502 DIN KP3K-20**

## MAIN PHYSICAL DATA

	NLGI grade 3
Colour	Dark brown
Appearance	Smooth
Consistency (penetration 60 strokes)	220-250 (10 <sup>-4</sup> m)
Drop point	195°C
Thickener	Lithium
Welding load	315kg

*The data given in this table represents typical production values and should not be taken as specifications.*

## PROPERTIES & ADVANTAGES

- ▶ Enhanced extreme-pressure and anti-wear properties.
- ▶ Very good resistance to high temperatures.
- ▶ Water insoluble.
- ▶ Good protection against corrosion and rust.
- ▶ Effective between -20°C and +140°C.
