

Road Chain Lube

Super tacky chain lube for motorcycles

USES

Suitable for road and competition motorcycle chains.

Tacky consistency to prevent high speed fling-off.

PROPERTIES & ADVANTAGES

- ▶ Excellent lubrication power.
- ▶ Very good anti-wear and anti-corrosion properties.
- ▶ Works on O-ring and non O-ring chains.
- ▶ Resists high temperatures.
- ▶ Specific super tacky formula to prevent fling-off at high speeds and when it is raining.
- ▶ Long-life lubrication for extended chain life.
- ▶ Excellent penetrability for enhanced chain flexibility.

OPERATING PROCEDURE

ROAD CHAIN LUBE effectively dissolves old grease and deposits.

We recommend to clean the chain before lubrication, preferably using our degreaser **MECAPROP**.

Shake the aerosol, spray over the entire length of the inner side of the chain and let the product penetrate for a few minutes.

For off-road use, use YACCO Off Road Chain lube.
