

# MULTIP EP 2

Extreme-pressure & high-temperature grease  
with lithium complex soaps

## USES

Suitable for all ball bearings and joints, particularly for heavy-load and high temperature applications, or with an exposure to shock and vibrations...

It has a wide range of uses, including transport, construction, agriculture, off-road vehicles, industry ...

Temperature range: **-20°C to +180°C**.

### Specifications:

**NLGI grade 2**

**ISO 6743-9 ISO-L-XBEHB 2**

**DIN 51502 DIN KP2P-20**

## MAIN PHYSICAL DATA

	Values
Colour	Red
Drop point	300°C
Thickener	Lithium complex
Welding load	>315kg

*The data given in this table represents typical production values and should not be taken as specifications.*

## PROPERTIES & ADVANTAGES

- ▶ Excellent extreme-pressure properties.
- ▶ Outstanding resistance to heat and leaks.
- ▶ Long-lasting lubrication and extended service life of equipment.
- ▶ Excellent lubricating properties due to the high dropping point of the thickener.
- ▶ Water resistant.
- ▶ Enhanced protection against oxidation.
