

# POLI-LUSTRANT

POLISHING WAX CREAM

## USES

Polishing cream containing wax, shine agents and abrasives.

Allows to restore shine and revive colors to faded paints.  
Does not contain silicone.

## PROPERTIES & ADVANTAGES

► Specifically designed for automotive paints used on cars, trucks, motorcycles. Also suitable for use on metals like copper, inox, chrome.  
**Not recommended on anodized aluminum.**

► When applying the cream, it leaves a white film which adheres perfectly to any surfaces. Once polished and cleaned, the surface becomes shiny and looks like new again

► Revives colors

## INSTRUCTIONS FOR USE

- Shake the aerosol well before use until ball inside can rattles.
- Spray directly on pre cleaned surfaces to be treated.
- Let the product act for a few minutes.
- Wipe with a clean, soft cloth in circular motion until the product is gone.
- Repeat process if necessary.
- Finish polishing with a dry, clean cloth.

## PRECAUTIONS FOR USE

- Keep away from frost. Do not store at a temperature below 5°C.
- Not recommended on anodized aluminum.
- Container under pressure. Keep away from heat.
- Do not use on hot car body or in direct sunlight.
